that Come forward to take the loans. It is rather to be feared that loans are being given too freely, and at that rate, much more amount will have to be written off as irrecoverable. It seems to be necessary to ask the Dev. Comr. to instruct the D.C's to restrict the grant of loans as far as possible & to allot amounts of loans as far as possible & not to go beyond it.

12.7.23.

Rev-Secy. It appears to be necessary to instruct the R.C. Collectors that there has been general rainfall that loans should not be promiscuously given — the amounts required for seed &c cannot be heavy - & must be satisfied out of sanctioned grants in the Budget. There is no good of Govt. ending locking the stable door after the horse is stolen. As regards extra allotments, that question may be disposed of on receipt of reports which already called for in regard to past grant loans.

Sir,

With reference to correspondence ending with your letter No.1232/D. 30th June 1924 in the matter of providing additional funds for tank maintenance works in the Tumkur District, I have the honour to invite reference to my D.O.No.50/23-24 dated 1st July 1924 and also to another communication of to-day's date requesting sanction for additional funds and for issuing telegraphic intimation to the Executive Engineer of Tumkur Division for keeping open the works in places where there is need for labour; and to state that the letter under reference was received on 1st July 1924 when all unexpended amounts sanctioned for relief works -- lapsed to Government and to request that additional allotments as requested in my D.O. letter referred to above may be sanctioned immediately.

As regards the Maddagiri-Hindupur Road, I beg to invite reference to my letter No. D.44 of 23-24 dated 25th June 1924 stating that the work is engaging about 600 coolies every day and that an additional grant of Rs.3,000/- is required for the work and requesting that this amount may be sanctioned and that in view of the large number of coolies daily employed on this work, it may be kept open until there is a perceptible decrease in the number of labourers resorting to the work.

AS

As the Executive Engineer has stated that the road work has been stopped as per Chief Engineer's letter No.12598 dated 5th May 1924 conveying instructions of the Secretary to Government, Local and Legislative Department, contained in his letter dated 12th April 1924 to the Secretary to Government in the Public Works Department dated 12th April 1924 (vide copy enclosed to this office letter dated 25th June referred to above.) and Subsequent Communication, I request that sanction of Government may be obtained for keeping open the work as suggested by me and for the additional allotment required for it.

R e a d:-

The several Government Orders on the subject of the grant of relief in the affected areas in the State during the year 1923-24.

2. Correspondence ending with letter No.D.44/23-24 dated the 3rd July 1924 from the Revenue Commissioner requesting sanction to the grant of additional funds to carry on the relief operations in certain ~~portions~~ parts of the affected ~~areas~~ tracts from 1st July 1924.

Order thereon:- 13-22 Dis

Dated, 8th July 1924

Now that the official year has closed, Government consider it necessary that the question of relief operations initiated and carried out in the last year affected areas of the Bangalore, Kolar and Tumkur Districts should be carefully examined. Judging from the Weekly Seasonal Reports received from the Revenue Commissioner, the rainfall during the past six ~~mark~~ weeks has to a considerable extent obviated the difficulty experienced by the people in the affected districts for fodder and water. The commencement of agricultural operations has afforded ~~EK~~ employment ~~employment~~ to the labouring classes and the

reports received from the Deputy Commissioners show that the number of coolies employed on relief works is gradually decreasing. It is therefore not necessary to continue the operations on the present scale, Government consider that it would be enough if the works to be continued are strictly limited to ~~cases~~ areas in which, having regard to local conditions, employment has to be found ~~from~~ for the labouring classes for some time longer. All operations connected with the distress ~~will~~ shall be stopped with effect from the 15th of August 1924.

2. In order to ascertain definitely the outlay on account of Distress Relief Operations during the year 1923-24, Government desire that all Heads of Departments entrusted with relief operations, should before the 23rd of this month submit to ~~the~~ Government information as regards the total grants placed at their disposal, the number of works started by them, the amounts drawn from the Treasury, the disbursements made, and the amounts that lapsed to Government ~~up~~ at the end of June last. In compiling this information Heads of Departments should obtain from all disbursing officers information as to the amounts drawn by them from the Treasury and the payments made by them up to the 30th June 1924.

3. In the case of Tank Maintenance Works which were started on a large

scale to relieve distress, Government consider that incomplete works which have been duly sanctioned and in respect of which nearly half the work has been done must be completed. As the recent rains have brought in a good supply of water to almost all tanks it is doubtful if any tank maintenance work can be carried out now. If the conditions of any particular tank allow earth work being done at present,)

which fact must be certified by the Executive Engineer after personal inspection, ~~such work~~ may be provided with, if there is any demand for labour in its vicinity. The Chief Engineer is requested to submit before the 23rd instant a list of tank maintenance works which have been started and on which ~~many half~~ the estimated amount has been expended till now ~~and~~ particulars of the amounts required to complete ~~the works~~. On receipt of this information, necessary funds will be provided by Government.

4. As regards other relief works such as Roads, Village Improvement Works, Permanent Well Works (if sanctioned out of Distress Funds) they should be completed so long as they are works sanctioned by proper authority. The funds required for this purpose will, in the first instance, be found out of the grants for these purposes in the current year's budget. In ~~such~~ cases wages should be revised according to the present market conditions. The Revenue Commissioner is requested to submit, in consultation with the Chief Engineer, a list of all such works and the total amount that would be required for ~~the purpose~~ so that if any additional amounts are required, they may be provided by Government.

5. L o a n s.:- The Revenue Commissioner requests that an allotment of Rs. 50,000 may be made for granting Takavi Loans in the Kolar and Tumkur Districts in the month of

July alone. In this connection, Government observe that, as regards applications for loans received during the current year they should, in the first instance, be met out of the grants provided for the purpose in the current year's budget. In regard to loans, in respect of which only partial payment was made during last year, the Revenue Commissioner is requested to forward an estimate of the amount (before the 23rd instant) that will be required during the current year to pay subsequent instalments on account of such partly paid loans. On receipt of this estimate, Government will provide the necessary grant.

6 Gratuitious Relief:- The Revenue Commissioner recommends an allotment of Rs.1000 for Tumkur and Rs. 500/- for Kolar for gratuitous relief for 3 months. A sum of Rs. 300/- is sanctioned for each of the Districts for expenditure till the 15th August 1924.

7 Relief to Weavers:- A sum of Rs. 2,500/- will be placed at the disposal of the Registrar of Co-operative Societies for grant of loans throggh Co-operative Societies to artisans in the affected areas. The Revenue Commissioner is requested to obtain and forward information as to the actual amounts disbursed last year under this head up to 30th June 1924.

8 Free Supply of Seeds:- Government do not consider it necessary to give any free supply of seeds as recommended by the Revenue Commissioner. The relief required may be given by the grant of Takavi loans.

9 Maddagiri - Hindupur Road:- This road was sanctioned in Government Order dated 4th February 1924. The District Board of Tumkur have contributed a sum of Rs. 5,000/- towards the cost of the estimate. Government direct that an equal sum be provided for the purpose from the Distress Funds of last year and that out of this sum of Rs. 10,000/- whatever has not been spent during the past year may be expended in continuing the work during the current year. The question of providing additional funds will be considered after that is exhausted. The Chief Engineer is requested to report within a week the sum actually spent on this work till the end of June 1924.

10 General:- Government desire to emphasise the necessity of all officers concerned furnishing the information now called for within the prescribed time.

Sir,

Referring to para headed 'Loans' of Government Order No. 13-22/Dis. dated 8th July 1924 calling for an estimate of the amount required during the current year for payment of subsequent instalments on account of partly paid loans, I have the honour to invite kind reference to my letter No. D.50 of 23-24 dated 7th July 1924 requesting sanction for a sum of one lakh of rupees for the purpose of granting loans in the affected Districts; and in view of the very large demand for loans that would be existing in these two districts till the next harvest, I would request the sanction of an additional lakh as proposed therein. The whole amount, if sanctioned immediately, will be utilised most beneficiently and will probably be spent within a month.

As regards the current year's Budget allotment of Rs.73,000/-, I beg to state that I have placed a sum of Rs.25,000 at the disposal of each of the Deputy Commissioners of Tumkur and Kolar -- Districts for sanctioning loan applications received after 1st July 1924; and a sum of Rs.3,000 to each of the remaining Districts, the balance of Rs.5,000 being held in reserve at my disposal.

As

As regards the sum of Rs.25,000 sanctioned in the current year's Budget for Village Improvement Works, the Deputy Commissioners of Kolar and Tumkur Districts have been given out of the allotment, a sum of Rs.5,000 and Rs.2,000 respectively and the remaining Deputy Commissioners have been allotted a sum of Rs.2,000 each with a reserve of Rs.6,000 at my disposal for making further allotments.

For Drinking Water Wells a sum of Rs.30,000 is provided in the current year's Budget: and out of it a sum of Rs.8000/- (Rs.8000) has been distributed among the Deputy Commissioners of Kolar, Tumkur and Bangalore for being spent on completing well works sanctioned out of Distress Funds.

(Kolar	Rs. 5,000)	
(Tumkur	2,000)	Rs.8,000
(Bangalore	1,000)	

In respect of the amount required for Road Works in the affected Districts, I have written to the Chief Engineer to allot necessary funds required for the works.

The report called for in respect of several items in the Government order under reference will be furnished to Government on receipt of information from the Deputy Commissioners in the matter.

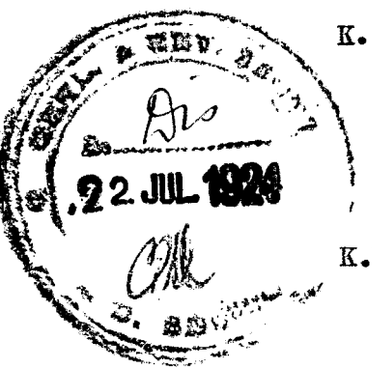
No. D.3 of 24-25. Office of the Revenue Commissioner in Mysore,
Bangalore. the 21st July 1924.

From

K. Chandy, Esquire, B.A.,
Revenue Commissioner in Mysore.



To

K.V. Anantaraman, Esquire, B.A.,
Secretary to the Government of
H. H. the Maharaja of Mysore,
Revenue Department, Bangalore.

Sir,

Referring to correspondence ending with your D.O. letter No.68/D. dated 16th July 1924 regarding the additional allotment of one lakh of rupees required for the grant of Takavi loans in the affected districts, I have the honour to state that out of the current year's budget Takavi allotment of Rs.65,000, the Deputy Commissioners of Districts were placed in possession of funds as noted in the margin. From the telegram (copy enclosed) received from the Deputy Commissioner, Tumkur District, on 11th July 1924, it is seen that there is a pressing demand for grant of loans for purchase of bullocks, seed grains in the Madagiri and Gubbi Taluks and that if it is delayed, opportunity for cultivation would be lost. Paras 10 and 12 of my latest special weekly season report for the week ending 19th July 1924 submitted to Government to-day show that hard conditions are still prevailing in Maddagiri and Pavagada Taluks, in parts of which the Deputy Commissioner was touring last week; and that as much as a sum of Rs.39,000 is needed for grant of loans in Pavagada Taluk alone, where the distress is reported to be getting severe on account of scanty rainfall.

Tumkur	Rs.30,000,
Kolar	25,000,
other districts Rs.1,500 each, &	
Reserve	1,000.

In the circumstances, I beg to state that the information called

called for in the Government Order dated 8th July 1924 will be furnished to Government this week on receipt of the Deputy Commissioners' reports called for in the matter and to request that in the meanwhile Government may be pleased to sanction a sum of Rs.50,000 immediately for grant of Takavi Loans in view of the serious situation prevailing in parts of Tumkur District.

I have, in my letter No. D.1 of 24-25 dated the 21st instant reporting on floods also asked for the grant of a loan of Rs.50,000/-. If a lakh in all could kindly be -- sanctioned for disbribution in the Districts affected by -- floods and scarcity, this will be exceedingly timely and useful.

I have the honour to be,

Sir,

Your most obedient servant,

K Mundy

Revenue Commissioner.

for Deputy Comptroller.

(A) The excess over the grant is because no definite provision was madefor the Establishment entertained in the Public Works Department - Vide remarks against the last item in the statement annexed to Government Order No.671/73(dated 7th March 1924.

(B) A sum of Rs 60,000/- was adjusted, provisionally, towards loss on fodder supply operations in view of the fact that against a sum of Rs 1,08,000/- spent, a sum of Rs 31,000/- has actually relized to end of June 1924 and the value of stock on hand in Bangalore Depot on 1st July 1924 was estimated at Rs 14,000/- Thus providing a further margin of Rs 2,000/- this sum Viz. Rs60,000/- was adjusted provisionally as the estimated loss.

Secretary to the Government of Mysore,
Revenue Department.

Sir,

With reference to correspondence ending with your ~~remarks~~ reminder No.323/D dated 20th December 1924, I have the honour to forward herewith a statement showing the expenditure incurred under several heads of Distress Relief Operations for the year 1923-1924, and to state that against the provision of Rs.77,000/- "for works in charge of Public Works Officers" an outlay of Rs.22,000/- has been incurred resulting in a saving of Rs.55,000/- while under the head "Loss on Fodder Supply operations" there has been an excess outlay of Rs.60,000/- over the provision. The net result on account of these two deviations is an excess of Rs.5000/- which together with small deviations under other minor heads results in an excess of Rs.6000/- over the grant for the Major head 33 Famine Relief Operations (outright expenditure).

I have the honor to be,
